## Xristozo

Written by Paul Q

G – Em – G – C

[Verse 1]

Em            D                    G  
God turn our hearts back to you  
                  Em        D            G  
With faithful love, sincere and so true  
                  Em        D            G  
To hate all sin, and cleave to the good  
                  C                            D  
to speak your truth, just like we should

[Verse 2]

                  Em        D            G  
Bring back our youth, with fiery eyes  
                  Em        D            G  
Their youthful sins they would despise  
                  D/F#    Em    D        G  
They’d lead the way in victory  
                  C        Am    D  
Their heart’s fire change history  
Em    G    C  
Oh oh Oh oh Oh  
Em    G    C  
Oh oh Oh oh Oh

[Verse 3]

                  Em        D            G  
Hearts of faith, that will not bend  
                  Em        D            G  
With devotion true, they do not pretend  
                  D/F#    Em    C            G  
Oh God renew the hearts sincere  
                  C                            D  
With holiness and with reverent fear

[Bridge]

                  C    D                    G  
Let devils fear when we draw near  
                  Em    D                    G  
Let darkness flee, as we stand strong  
                  C                            D  
Let shackles break, as we awake

[Chorus]

                  Em  
Let Heaven’s fire fall again  
                  C  
Purify the hearts of men  
                  G  
Raise a people unashamed  
                  D  
Burning brightly in Your name  
                  Em  
Spirit breathe upon these bones  
                  C  
Make our hearts Your dwelling home  
                  G  
Days foretold now come alive  
                  D                    Em-G-C  
Holy God revive, revive

[Verse 4]

                  Em        D            G  
Bring us to the place, your heart longs  
                  Em        D            G  
Who worship in truth, and not just in song  
                  D/F#        Em    C            G  
With boldness and bravery, we don’t shrink back  
                  C                            D  
Devils strongholds, we march and attack

[Verse 5]

                  Em        D            G  
Grant us to live, as in days of old  
                  D/F#    Em        D            G  
The fire from heaven that prophets foretold  
                  D/F#    Em        C            G  
Miracles restored, alive and renewed  
                  C                            D  
Healing afflicted, where power ensues

[Verse 6]

Our sons and daughters to prophecy  
Unashamed and bold, willing to die

No sacrifice small, or to great  
So willing to do, before it's too late

[Bridge]

Let devils fear when we draw near  
Let darkness flee, as we stand strong  
Let shackles break, as we awake

[Chorus]

Let Heaven's fire fall again  
Purify the hearts of men  
Raise a people unashamed  
Burning brightly in Your name  
Spirit breathe upon these bones  
Make our hearts Your dwelling home  
Days foretold now come alive  
Holy God revive, revive

[Outro]

God bring to us, heavens dear flame  
All for your Glory, and for your fame  
Reach down from heaven, and touch broken lives  
As we work to restore, and hearts to revive
