

A Cry in the Noise

Xristozo

Bb//// F/A//// Gm//// F//Dm// Eb////Eb////F

[Verse 1]

Bb
I walk these streets of broken glass
F
and neon-painted lies
Gm
Where innocence is bought and sold
Eb
beneath in different skies
Bb
Children traded for a moment,
F
souls too young to know
Gm
While heaven weeps in silence
Eb F
at the seeds we gladly sow
Bb
Young hearts drown in whispers
F
of a counterfeit embrace
Gm
Told their worth is measured
Eb
by the hunger in a gaze
Bb
And truth is just a relic that
F
the modern mind denies
Gm
While freedom wears the chains
Eb
it swore it would despise

[Pre-Chorus]

F
And I can hear it
Gm Eb
faint but calling through the din
F Eb F
A voice like thunder buried deep within

[Chorus]

Bb F
Oh God, break through the noise we've made
Gm
We're choking on the lies we praise
Eb
We crowned ourselves, we lost our way
F Bb
Still Your mercy waits
F
Through the blood, through the cross
D/F# Gm
Through the love we counted loss
F Eb F Gm
Let one soul hear before it's too late
Eb Bb F Bb
Oh God, break through... break through the noise

[Verse 2]

Bb
They preach a gospel made of self
F/A
and call it liberty
Gm
But slaves to every craving still,
Eb
they wear it proudly
Bb
Entertainers lead the blind

F
with promises that fade

Gm
Marching like the lemmings
Eb F
to a grave already made

Gm Bb F
Truth is drowned in headlines, twisted, torn apart
Gm Eb F
Education numbs the mind but starves the heart
Bb
And every screen's a pulpit
F
for a thousand hollow creeds
Gm
While eternity grows closer
Eb F
with every breath we breathe

[Pre-Chorus]

And I am shouting,
Gm Eb
but my voice feels like a spark
F Eb F
Against a world that's learned to love the dark

[Chorus]

Bb F
Oh God, break through the noise we've made
Gm
We're choking on the lies we praise
Eb
We crowned ourselves, we lost our way
F Bb
Still Your mercy waits
F
Through the blood, through the cross
D/F# Gm

Through the love we counted loss
F Eb F Gm
Let one soul hear before it's too l-a-t-e

Eb Bb F Bb
Oh God, break through... break through the noise

[Bridge]

Eb
I see them running toward
Gm
the edge with blinded eyes
Laughing at the truth, believing every lie
Eb
Measuring themselves by mirrors made of dust
Gm F
Calling darkness light and calling ashes trust

Bb
But there You stand
F
with wounded hands still open wide
D Gm
The King of Heaven crucified
Eb F Gm
Not willing one should fall away
Eb F
Still calling... still calling...

Bb
Can you hear Him?
F
Through the silence of your soul...
Gm
Can you feel Him?
Eb F
You were never meant to walk alone...

[Final Chorus]

Bb F
Oh God, break through the noise we've made
Gm
Tear down every lie we've raised
Eb
We crowned ourselves, we dug our graves
F Bb
Still Your mercy waits
F
Through the blood, through the cross
D/F# Gm
There is hope for all the lost
F Eb F Gm
Let one soul turn before it's too late
Eb Bb F Bb
Oh God, break through... break through the noise

[Outro (soft, fading but resolute)]

F/A Gm
If just one heart would turn and see
Dm Eb F Gm
The chains undone, the soul set free
F Eb Dm Gm
Then let this cry reach through the night
Cm7 F Bb
Till every whisper burns with light
